Take two geeks and give one of them a dose of reality, even though he couldnt possibly understand. The recipe could be explosive but things dont hang around long enough when amnesia sets in. Joes theory on how to aid the evolution of man is working. However, every now and again weird science starts to bust through. Then we move from the laboratory to a much bigger test tube, where all control is in the hands of the gods or something, which does the same thing.
