VDM Verlag Jun 2009, 2009. Taschenbuch. Book Condition: Neu. 220x150x8 mm. Neuware - Wagner once referred to the formal layout of 'Lohengrin' and the possibilities for future innovations: it is bound to lead to ever new formal structures along the road which I myself have opened up. The three dialogue-scenes in Lohengrin reveal examples of these new formal structures in various guises; these new formal structures contain both recontextualized Romantic opera traditions (such as the aria or duet) and Wagner's own innovative musical structures. Each of the three scenes studied in this book represents a revolutionary construction for a dialogue-scene: one a chain of aria-like numbers whose varying complexity creates a structural-dramatic rhetoric, another a series of divergent monologue pairs and the third, a dissolution of traditional forms and the most progressive section of Lohengrin. The analyses of these scenes in this book, contextualized within the tradition of previous German Romantic operas, reveal Wagner's first concrete steps toward his new aesthetic ideal, in which music and drama cohere as two inseparable halves of one artistic whole. This important study will be valuable to anyone studying Wagner, operatic history, or 19th-Century music. 132 pp. Englisch.
