## Nation, Governance and Modernity in China: Canton, 1900-1927 (New edition)

By Michael Tsin

Stanford University Press. Paperback. Book Condition: new. BRAND NEW, Nation, Governance and Modernity in China: Canton, 1900-1927 (New edition), Michael Tsin, This is the first detailed study in English of the city of Canton (Guangzhou), the cradle of the Chinese revolution, in the first quarter of the twentieth century. In retracing various fragments of the city's history in this period, the book argues that modernist politics as practiced by the Nationalists and Communists represented a specific political rationality embedded in the context of a novel conception of the social realm. Modern governments invariably base their claim to legitimacy on the support of "society" or "the people." The mobilization of hitherto disenfranchised constituents into the political process is thus a central component of the nation-state. Modern governments also produce schemes for categorizing and organizing these same constituents to ensure social unity and their base of support. The author analyzes this apparent paradox of modern governance - emancipation and discipline - as shown in the discourse and practice of Canton elites and the lives of the city's inhabitants. Canton, which witnessed the modernization of both its physical and social structures in the early twentieth century, was the site of the first modernist...
